

REACH Alert: Current Rules, Guidance Documents and Implementation Status

Location: Your Computer Offering # 0905-708 Priority Code: 520

WHO SHOULD ATTEND

This course brings to you the most recent update of the REACH regulation. It is designed for professionals with a certain degree of knowledge of REACH and are interested in getting the timely updates so they can best plan and prepare for compliance. This course is beneficial to professionals involved in all aspects of chemical applications for a wide range of product development, including:

- Research and Development
- Technology, Formulation and Product Development
- Marketing and Technical Sales
- Business Decision Makers
- Regulatory Affairs
- QA and QC Professionals

LEARNING OBJECTIVES

Upon completion of this training, you will be able to:

- Summarize the most current REACH chemical substance registration priority and status
- Summarize the priority action items to be taken by the European Chemical Agency and National Competent Authorities
- Identify potential regulatory hurdles as you enter the next registration phase

COURSE DESCRIPTION

This 90-minute, **accredited** course focuses on REACH updates. It is NOT an overview of the REACH regulation, nor is it suitable for entry-level professionals with no prior knowledge of REACH. Instead, it is designed to provide a quick and timely update to practitioners already engaged in REACH compliance activities ranging from chemical registration to testing to regulatory and business strategy development.

Module 1: REACH Registration Status

- Statistics of submission
- New ECHA announcements
- Rules updates

Module 2: ECHA Operation Report

- Updates on technical guidance documents
- Updates on REACH-IT
- Updates on new issues

Module 3: GHS Updates and Misc

- Progress report
- Anticipated future plans and actions
- Emerging issues

Question and Answer Session

COURSE DIRECTOR

Wen Schroeder, President of SEKI Cosmetics, LLC.

Wen Schroeder is a consultant in global regulatory affairs, chemical control and regulations, and cosmetic formulation and product development. She has over 20 years of personal care product development and pharmaceutical research experience with 30+ US patents and numerous foreign filings.

Ms. Schroeder has degrees in Pharmacy and Environmental Science specializing in Environmental Toxicology and Law. She is a RAC-certified Regulatory Affairs professional experienced in the regulations of cosmetics, food, OTC drugs, and chemical management. Wen served on the Personal Care Products Council's Air Quality Committee and is active in the Society of Cosmetic Chemists, the Drug Information Network, and the Regulatory Affairs Professionals Society. She is scientific advisor to Taiwan Government External Trade Development Council.

Ms. Schroeder writes regularly for cosmetic and personal care journals and teaches professional courses on cosmetics, FDA and EPA regulations. Her contribution has resulted in three recently published textbooks on cosmetic science and regulatory affairs. She is the Director at the Center for Professional Advancement for many courses on topics including "REACH", "GHS", "Cosmetic Regulations", "Biocides, Plant Protectants, Preservatives and Pesticides", and "Sunscreen Technology and Product Development".

ACCREDITATIONS

The Center for Professional Advancement has been approved as an Authorized Provider by the International Association for Continuing Education and Training (IACET), 8405 Greensboro Drive, Suite 800, McLean, VA 22102. In obtaining this approval, The Center for Professional Advancement has demonstrated that it complies with the ANSI/IACET Standards which are widely recognized as standards of good practice internationally. As a result of their Authorized Provider membership status, The Center for Professional Advancement is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET Standards.

WHO WE ARE

The Center for Professional Advancement (CfPA) is the largest accredited technical training organization in the world with a curriculum of approximately three hundred and fifty short courses in 18 industries including Pharmaceutical, Biotechnology, Medical Device, Chemical, Cosmetics, Food and more.

Since our founding in 1967, we have successfully trained nearly a half million people worldwide in topics ranging from basic and introductory concepts to new advances and cutting-edge technology, and current U.S. and European regulations. CfPA courses are offered in a variety of formats – Public offering, Client Site and Online – to fit you or your company's training needs.
